

Shemet Ihor

Front-End Developer (Next.js, React) | PHP/Symfony | Upwork Freelancer
+33 7 67 04 48 70 | shemetttttt8@gmail.com | Based in France Ukrainian/Russian | French | English

Tech Stack

Front-End: Next.js, React, TypeScript, JavaScript, HTML, SCSS, Bootstrap, Material UI

Back-End: PHP, MySQL, Symfony

Concepts: MVC Architecture, REST APIs, OOP, Responsive Design, Agile Development

Tools: Git, VSCode, Figma, Upwork, AutoCAD, Microsoft Office Suite

Professional Experience

Front-End Developer HexaWeb Solutions Remote | 2024

- Developed and maintained web applications using Next.js and TypeScript within a monorepo architecture, ensuring consistent structure and shared logic across multiple projects.
- Built a unified API layer to serve data for several products, improving maintainability and reducing code duplication.
- Created interactive and animated user interfaces with modern libraries such as GSAP and Framer Motion, enhancing user engagement and visual appeal.
- Optimized applications for SEO, performance, and cross-platform compatibility, ensuring smooth operation across devices and browsers.

Junior Front-End Developer ABI_WORLD Ukraine | 2023 - 2024

- Developed a real estate rental platform for Abu Dhabi, providing users with convenient property search, filtering, and booking features.
- Implemented dynamic property filtering via API, including sorting by price, location, and property type.
- Built interactive interfaces using React, Redux, and React Hook Form, focusing on usability and form stability.
- Created responsive layouts and reusable UI components based on Figma designs
- Wrote clean, maintainable, and well-documented code, collaborating closely with QA and back-end teams.
- Used Git for version control and contributed to team sprints following Agile methodology.

Front-End Intern

AISS_GROUP Ukraine | 2022 - 2023

- Maintained and updated the company's internal corporate website
- Assisted in building static pages, fixing bugs, and styling components
- Gained hands-on experience with Bootstrap, HTML, CSS, and JavaScript basics

Project Engineer / Department Head

AISS_GROUP / AIK-EKO Ukraine | 2017 - 2022

- Led engineering teams and managed full project lifecycle from concept to delivery
- Designed industrial systems, managed documentation, and coordinated with clients
- Developed leadership, planning, and technical analysis skills under pressure

Education

AFPA - Web Development Program - France | 2024-2025

EPAM Systems - Front-End Development Certification | 2022

National Technical University of Zaporizhzhya - Ukraine Mechanical Engineering (Automation), officially recognized as equivalent to BAC +5 in France BAC+5 | 2013-2019

About Me

Detail-oriented and pragmatic developer with a strong analytical background and a passion for building user-friendly, scalable web applications. Transitioned from mechanical engineering to front-end development, combining technical rigor with creative design. Comfortable working both independently and as part of cross-functional teams.
